

Manure Management System Components and Practices Eligible for SRF Loan Assistance

Soil and Concrete Testing

Test Pits, General
Test Pits, Walk-in
Initial Soil Testing
Clay Liner Testing
Concrete Testing

Construction Area Site Preparation

Tree/Obstruction Removal
Manure Removal
Fence Removal
Temporary Fence Installation
Building Removal (Salvage/Relocation)
Building Removal (destroyed - burned, buried, etc.)

Earthwork

Excavation/Earthfill (machine compaction)
Sand Fill (in-place over liner)
Clay Liner (in-place, controlled compaction) "Imported Clay <10 miles"
Clay Liner (in-place, controlled compaction) "Local Clay"
Erosion Blanket (in-place)
Shaping, Grading, Mulching & Seeding
Culvert Installation <36"
Culvert Installation >36"

Fill Material (In-place)

Gravel Road Fill <10 miles
Drainfill <10 miles
Geotextile

Solid Separator Installation

Concrete - Flatwork (in-place)
Concrete - Walls and Curb (in-place)
Screens
12" PVC Pipe
12" PVC Elbow

Fencing

Perimeter Fence (in-place)

Bunkline Fence (in-place)

Interior Fence (Replacement of fence lost due to construction only)

Windbreak Fence (Replacement of fence lost due to construction only)

Watering Facility

Concrete Pad (in-place; maximum size 20'x20')

Waterers (not to exceed the number of waterers prior to construction)

Trenching & Pipeline (in-place)

Well & Pump (Only eligible if existing water source is verified as being inadequate)

Electrical Hookup (Only eligible if existing water source is verified as being inadequate)

Heavy Use Protection (limited to 12 ft. x 1 ½ ft./animal; Does not include feed bunks)

Concrete (flatwork and/or curb in-place)

Building Relocation (must be approved by NDDH during planning phase)

Building Relocation (Costs for moving the building)

Building Foundation (Costs for the foundation replacement at the new site, if applicable)
